INTRODUCTION

Tourism is travel for recreation, leisure, religious, family, health, and business purposes. Tourism is usually associated for limited period. The United World Tourism Organisation defines tourists as people "travelling to and staying in places other side their usual environment for more than one consecutive year for leisure, business and other purposes. Tourism has become a popular global leisure activity. Tourism can be either domestic or international, and international tourism can be classified as either inbound or outbound tourism. Today inbound tourism is a major service of income for many countries, especially in terms of foreign exchange earned by the country as whole. It also has a substantial impact on the local economy and employment of a place frequently visited by tourists. India is a magnificent country with a rich cultural heritage which has always fascinated travellers. It is a unique land of diversities where all kinds of natural beauty including desert, sea, forests, mountains, flowers, wildlife is present within a single geographical boundary of a country. Anybody visiting India will have experience of different cultures, dresses, cuisine, flora and fauna in different states.

India has tremendous destination and a hub of many type of tourists. Indian government really has made various efforts on tourism, travel and hospitality to take an advantage of those unique possession to promote tourism. Other such initiatives has taken on various rules and regulations for easy tourism in India. Medical tourism is one of the emerging area in tourism.

TOURISM IN TELANGANA: Telangana, formally recognized on June 2, 2014 is a treasure trove of tourist destinations. Telangana is known for its hospitality and multicultural and pluralistic society. Hyderabad, the capital city of this state is a thriving global services sector and film industry and known for its world famous Hyderabad Biryani. Constituting a major part of Deccan plateau, Telangana has a pleasing climate, with abundant natural and water resources. Telangana is here to take its rightful place in the country, as a highly developed state and society with a proud history and grand heritage. Telangana apart from the historical perspective of various dynastic and regional and cultural influences offers its visitors a plethora of places of pristine natural beauty. With serene lakes, verdant woods, rocky regions, abundant wildlife, flora and fauna, elaborately carved temples, magnificent palaces and forts reflecting architectural blends of Hindu, Pathan and Persian styles.

The artistic temper of the local people finds expression in the varied art forms of the different tribes and regions of Telangana in paintings, handicrafts in wood and metal and textile of International repute. Telangana is famous world-wide for its amazing Bronze castings that require exquisite skills for creating incredible idols. Nirmal town is world-famous for its varied range of handicrafts made using best traditional techniques to create masterpieces. Other prominent art works of the state include Nizamabad panels, Nirmal painted furniture, Dokra castings, Silver Filigree, Cheriya Scroll Paintings, Bidri craft, Pembarthi brassware etc.

The Pearl City, Hyderabad with its unmatched blend of history and modernity, hypnotizes everyone, whoever sets his/her foot in this beautiful city of Nizams. With a history as old as 400 years and the status of metropolitan city, Hyderabad promises a unique refreshing experience to all. From historical monuments to natural getaways to mouth-watering world famous cuisine to appealing shopping places and thrilling entertainment parks, this city has it all to keep you glued. There are many tourism places to visit in Hyderabad, from families, young group of friends, children to senior citizens, everyone will find something of their interest in Hyderabad. This city is a place worth visiting at least once in a lifetime. In fact, it is impossible for anyone to soak in the multifarious charms which the city has to offer in a limited time span. Located on the banks of the Musi River, the city of Hyderabad was established in 1591 CE by Muhammad Quli Qutb Shahs. The city is noted for its unique culture, a lineage which can be traced back to the AsafJahi rulers, who were great patrons of literature, art, architecture, culture, jewellery collection and rich food.

MEDICAL TOURISM:

Over the years, the term tourism has not simply limited to pilgrimage, leisure and recreation. In the last few decades with improving health awareness, infrastructure and ever growing expertise in the field of medicine has led to the development called, Medical Tourism. A term coined by travel agencies and mass media to address the rapid growth of Health and Tourism industry, it is a phenomenon, where people from all round the world travel to a different countries to obtain medical, dental, and other surgical care while at the same time at this time they roaming to various recreation and leisure places too. Medical Tourism, especially in india has various fields of modern, traditional and alternative medicine.

fluent multi lingual speaking staff and comfortable Facilities are available for private room, translators and other services

RESEARCH METHODOLOGY

The following research focus on Medical Tourism condition and its cost of various treatments comparatively with other cities in India

Data collection: This research study was conducted in a Government hospitals and selected corporate multi-super specialty hospital at Hyderabad.

Primary Data: Primary Data is collected using methods such as interviews, questionnaires and observations of the admit patients in the study hospital for the year 2021 randomly.

Secondary Data: All methods of collection can supply quantitative data (numbers, statistics or financial) or qualitative data. Secondary data is data that has already been collected by researcher for this purpose. Data has taken by Annual hospital reports, Government statistics.

ADVANTAGES OF MEDICAL TOURISM IN HYDERABAD:

Cost Benefit: The prime advantage is the cost savings with respect to medical consultancy or surgeries. Many of the Hyderabad hospitals, serving international patients, have state-of-the art infrastructure, highly educated doctors and top-notch services but the figure on that prices tag is a fraction of what it would be in developed countries. Even if the patient's insurance does not cover the costs of treatment in India, the final bill in an Indian hospital would most probably be lower than patient's out-of-pocket expenses.

Timeliness: Another Advantage is the possibility of getting immediate medical attention. There are no waiting lists or delays to contend with, due to insurance issues or unavailability of doctors etc.

Quality Health Care: Doctors and paramedics are well trained and one of the best in the world.

Personalized Care: Here patients are monitored closely with a personal care of all age group.

Technological Sophistication: All the corporate Hospitals in Hyderabad, are having state-of-the-art equipment and infrastructure for the best treatment and diagnosis.

CONCLUSION

Medical tourism primarily addresses the "poor health" end of the market, with patients traveling to another place for specific medical treatments or enhancements. Top medical tourism procedures include cosmetic surgery, orthopaedic surgery, cardiac surgery, and dental procedures. Patients and their families are attracted by the availability, better quality, and/or price of care at the destinations. Therefore, successful medical tourism depends upon the status of a country's broader medical sector, along with appropriate government regulations, patient safeguards, training standards, insurance frameworks, travel and visa restrictions, and other issues that drive the patient's experience and treatment outcomes. Hyderabad is a wonderful destination for Medical Tourism, the historical city is a pride for less-cost in various treatments in comparatively with other states and cities. The central government and state government want to make more schemes for attract globalised health tourism tourists.
